

## GSFA Online

Updated up to the 48<sup>th</sup> Session of the Codex Alimentarius Commission (2025)

### FOOD CATEGORY DETAILS

#### Dehydrated soybean curd (kori tofu) (06.8.5)

##### Description:

Soybean curd from which all moisture has been removed through the process of freezing, aging, and dehydrating. It may be reconstituted with water or sauce for consumption, or is used directly in prepared dishes. It may also be deep-fried or simmered in sauce.<sup>1</sup>

This page provides information on the food additive provisions that are acceptable for use in foods conforming to the food category.

### GSFA Table 3 Provisions

The following additives, as indicated by **Table 3**, may be used in this food category under the conditions of good manufacturing practice (GMP) as outlined in the Preamble of the Codex GSFA.

| INS No. | Food Additive or Group                   | Acceptable in Foods Conforming to the Following Commodity Standards                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
