### FOOD CATEGORY DETAILS

#### Mixes for sauces and gravies (12.6.3)

##### Description:

Concentrated product, usually in powdered form, to be mixed with water, milk, oil or other liquid to prepare a finished sauce or gravy. Examples include mixes for cheese sauce, hollandaise sauce, and salad dressing (e.g. Italian or ranch dressing).

This page provides information on the food additive provisions that are acceptable for use in foods conforming to the food category.

Items in uppercase (e.g. **PHOSPHATES**) refer to food additive groups.

## GSFA Table 3 Provisions

The following additives, as indicated by **Table 3**, may be used in this food category under the conditions of good manufacturing practice (GMP) as outlined in the Preamble of the Codex GSFA.

| INS No. ▼ | Food Additive or Group                   | Acceptable in Foods Conforming to the Following Commodity Standards                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
