FOOD CATEGORY DETAILS

Dietetic foods intended for special medical purposes (excluding products of food category 13.1) (13.3)

Description:

Foods for special dietary use that are specially processed or formulated and presented for the dietary management of patients and may be used only under medical supervision. They are intended for the exclusive or partial feeding of patients with limited or impaired capacity to take, digest, absorb or metabolize ordinary foods or certain nutrients contained therein, or who have other special medically-determined nutrient requirement, whose dietary management cannot be achieved only by modification of the normal diet, by other foods for special dietary uses, or by a combination of the two.¹

This page provides information on the food additive provisions that are acceptable for use in foods conforming to the food category.
